Present your company during Europe`s biggest sailing event!
Final stage of the The Tall Ship Races 2017

Let your company be visible in a special spherical tent zone
in the very heart of the event.

The Tall Ships Races is an annual regatta of large sailing vessels. For several months the world`s largest sailing ships compete on water just to reach their destination harbour and participate in a large sailing event. Szczecin will be happy to host the event for the third time. Maritime adventures, sports races, maritime games and plays, feasts in pubs and on the streets have long become a tradition in West Pomerania.

Żegluga Szczecińska is responsible for the technical side of the Final of the Tall Ship Races 2017 in Szczecin and organizes an accompanying fair.

This year`s top
music star of the event is...

Andrea Bocelli!
